

D-Rust-It Metal Shield 2009

Long-Term Indoor Water-Based Rust Preventative

PRODUCT BULLETIN

PRODUCT TECHNICAL DATA

Appearance.....Clear Amber
pH8.1
OdorBland
Weight8.7 lb/gal
VOC Content.....0 lb/gal

PRODUCT BENEFITS

- o Superior corrosion protection
- o Easy to apply
- o Wide dilution range
- o Provides a clear & dry-to-touch film
- o Washes off easily with diluted detergents such as Metal Kleener 0001 prior to painting, etc.

PRINCIPAL USES

- o Protection from rust on ferrous metals

GENERAL DESCRIPTION

Metal Shield 2009 is a liquid, corrosion inhibitor for ferrous metals. This water-based product is a significant advancement in anti-corrosion technology that replaces solvent and oil-based corrosion preventatives. Once applied, the clear protective coating will dry-to-touch within 30 minutes at ambient conditions.

Please refer to the MSDS for the typical chemical and physical properties for Metal Shield 2009.

DIRECTIONS FOR USE

Metal Shield 2009 can be applied to ferrous metals by dip, spray or flowcoat. The concentration of the Metal Shield to be used depends on the length of time corrosion protection is required.

Metal Shield 2009 is easily washed off with warm water and 1-2% Metal Kleener 0001. Treat metal after rust removal and before painting or other final protective coating to provide long-term indoor rust protection.

MATERIALS COMPATIBILITY

Metal Shield 2009 is safe on mild steel, stainless steel and most elastomers. Evaluate on small hidden area if in question.

STORAGE AND HANDLING

Read the label and Material Safety Data Sheet for complete storage and handling information about this product.

SHIPPING
